Institutional e-mail addresses

This is a single-author manuscript. The sole author's institutional e-mail address (`vinh.dq4@buv.edu.vn`, British University Vietnam) is supplied above and in the submission system. No non-institutional address is used, so no explanation under the journal's first mandatory requirement is needed.

Author contributions (CRediT)

Quang-Vinh Dang: Conceptualization, Methodology, Software, Validation, Formal analysis, Investigation, Data curation, Writing – original draft, Writing – review and editing, Visualization, Project administration. As sole author, he is responsible for all aspects of the work.

Declaration of competing interest

The author declares that he has no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

Funding

This research received no external funding.

Data and code availability

The agent trajectories, the cached model-judge scores and the analysis code that regenerate every number, table and figure in the manuscript are publicly available at <https://github.com/vinhqdang/SENTRY-Anytime-Valid-E-Process-Monitoring-of-LLM-Agent-Action-Streams>

This address is withheld from the anonymised manuscript because it identifies the author. The manuscript's data-availability statement says so and undertakes to give the address in the published version.
